

José Denis-Robichaud

DVM MSc PhD Dipl. ACVPM

Assistant professor

Faculté de médecine vétérinaire, Université de Montréal

jose.denis-robichaud@umontreal.ca

Summary

Dr. Denis-Robichaud is a professor of veterinary livestock management at the Faculté de médecine vétérinaire of the Université de Montréal (Rimouski campus). A trained veterinarian and veterinary epidemiologist, she is also a diplomate of the American College of Veterinary Preventive Medicine. Through her research and teaching, she explores the intersection of technological, societal, environmental, and climatic challenges in dairy production to promote sustainability and resilience. Grounded in epidemiological methods, her work focuses on developing knowledge and tools related to technological innovation, management practices, and interdisciplinary collaboration to optimize the health of animals, producers, consumers, and the environment.

Qualifications

- **Veterinary preventive medicine**
- **Animal health**
- **Epidemiology**
- **One Health**
- **Methodology and biostatistics**
- **Public health**

Education

2021 – Present	Diplomate of the American College of Veterinary Preventive Medicine
2013 – 2017	Doctor of Philosophy (Ph.D.), Population Medicine University of Guelph, Canada
2011 – 2013	Master of Science (M.Sc.), Veterinary Sciences Université de Montréal, Canada
2006 – 2011	Doctor of veterinary medicine (DVM) Université de Montréal, Canada

Professional experience

2025 – Present	Assistant Professor, Université de Montréal <ul style="list-style-type: none">- Lead and contribute to research projects in dairy production and preventive veterinary medicine- Teach core courses to first- and second-year veterinary students
----------------	---

2017 – Present	Consultant Epidemiology and Preventive Veterinary Medicine <ul style="list-style-type: none">- Design, analyze, interpret, and publish research in collaboration with stakeholders in animal science, public health, and <i>One Health</i>- Develop and deliver online continuing education courses for veterinarians and animal scientists- Study and communicate emerging trends and challenges in the dairy sector to both professionals and the general public
2020 – 2024	Postdoctoral research fellowship (part-time), University of British Columbia Project: <i>Integrating genomic approaches to improve dairy cattle resilience</i> Supervisor: Dr. Ronaldo Cerri
2021 – 2022	Research advisor (part-time), Université de Montréal Project: <i>Improving Early Warning of Emerging Threats</i> Supervisors: Dr. Hélène Carabin and Dr. Christina Zarowski
2011 – 2013	Veterinary clinician (part-time), Bovine Field Services Clinic, Université de Montréal Supervisor: Dr. Luc DesCôteaux
